

President Letter

Dear Friend,

The non-governmental organization Mission Armenia is already 20 years old!

Having adopted the mission of supporting the most vulnerable population, today we can proudly state that throughout all these years we have made all the possible efforts for the mission to come true.

Our self-denying devotion has not only assisted thousands of people but has been very valuable and fruitful for us as well: this mission of ours to get engaged in work worthy of human vocation and nature, to support the poorest of the poor has enriched us and has made us mature spiritually.

We particularly signify the fact that a group of committed people who joined their efforts with a sincere drive to help the victims of the earthquake and war, boldly, without backing off from numerous financial, psychological and system-related, sometimes unsolvable obstacles, through their consistent daily work succeeded in creating a whole empire of social services.

We are also proud that our spontaneous activity has grown into a strong non-governmental structure, which due to its experience and knowledge has gained a special place in the social support sphere in Armenia. The organization has become a unique harbor of hope and security for thousands of single elderly, disabled, refugees and other vulnerable groups.

The infrastructures of Mission Armenia have repeatedly proved their necessity and pertinence over these years and most importantly, have deserved the blessings of the vulnerable people, as well as the highest estimation of the authorities.

However, this firm structure for service provision established throughout 20 years, which covers almost the entire territory of the republic, together with the vital necessity of the provided services currently faces a grave problem of ensuring sustainability and continuity. The solution of this issue is decisive not only for thousands of lives of the vulnerable but also for securing further existence of an entire social system, which has no alternative either in the state or public sector. And it is here where your support can be crucial!

We'd like to invite you to be a part of this big mission and have your contribution in supporting the most vulnerable among our people enhancing the possibility for their dignified life and well-being. Inviting you for cooperation I am sure that our experience and knowledge combined with your enthusiasm can work miracles.

The information package presented to you includes a detailed description of Mission Armenia infrastructures and current projects.

Looking forward to hearing your feedback.

Sincerely,
Hripsime Kirakosyan
President
Mission Armenia
